REPORT

REMEDIAL COACHING PROGRAM 2022-2023 FOR SLOW LEARNERS

The Remedial coaching program for the academic year 2022-23 was implemented to support identified weak learners, aligning with the IQAC policy and facilitated by the admission committee of the college. The primary objective was to enhance the performance of struggling students across various subjects, offering targeted teaching support to improve subject knowledge, academic skills, and linguistic proficiency. The program also provided an opportunity for faculties to mentor students who had not successfully cleared one or more papers in previous semesters, alongside their current semester commitments.

The majority of departments efficiently executed the remedial coaching program within the stipulated time frame, showcasing a commitment to academic support for struggling students. Well-organized classes, personalized training and repeated practice sessions are the key components of the remedial coaching program.

FY BCOM

Remedial sessions for FY BCOM were conducted on three Wednesdays of a month for Sem I and Sem II.

Following subjects were decided to be allotted for remedial sessions in Sem I.

- FINANCIAL MANAGEMENT & ACCOUNTANCY I
- BUSINESS ECONOMICS I
- MATHEMATICAL TECHNIQUES I

Following subjects were decided to be allotted for remedial sessions in Sem II.

- FINANCIAL MANAGEMENT & ACCOUNTANCY II
- BUSINESS ECONOMICS II
- MATHEMATICAL TECHNIQUES

Total of 167 students were identified as slow learners in FY BCOM. The majority of students attended the remedial lectures and solved their queries.

Personalized attention in Accountancy focused on understanding the subject's golden rules. Tailored sessions tried to solve fundamental principles. Practice sums reinforced theoretical knowledge, emphasizing practical effects of debit and credit. This approach aims to enhance students' proficiency and confidence in learning Accountancy, with continuous feedback guiding students for sustained academic success.

The Economics faculty provided essential guidance to students, covering fundamental concepts and instructing on the creation of graphs and diagrams for topics such as demand-supply, equilibrium, and market structures. This hands-on approach aimed to induce a deeper understanding of key economic principles.

Mathematics doubt clearing sessions emphasized core concepts like operations, BODMAS rule, and tables, with practical assignments from university question papers. Regular practice sums enhanced problem-solving skills and guided students through challenging sums. Sessions also covered advanced topics like word problems, derivatives, shares, simple and compound interest and mutual funds. Continuous reinforcement via assignments aimed to solidify theoretical understanding. Counseling sessions addressed exam prep and stress management, showcasing a holistic approach to student well-being and academic success.
