The College Conducted a Seminar lecture on the subject of Intellectual property Right on the 3rd of December 2018 at 11.30 am. The Resource person was Dr. Raj Soshte Assistant Professor in the Department of Commerce, NSS College. The session was attended by the students of SY- BCOM/ BMS/ BBI/ BAF & TY- BCOM/ BMS/ BBI.

The Programme began with Asst. Prof. Zubin Batliwalla welcomed all participants on the behalf of M.P.V. Valia College introduced the speaker Dr. Raj Soshte the eminent speaker of the seminar.

The speaker shared his magnificent knowledge and experience in the Patents and Intellectual Property Rights where he guided students about drafting the patents and what actually can be patented. This vast information regarding the field is essential in today's world where innovation led Start-Up count every second. It is essential for the participants engaged in developing new concepts and products who should protect their ideas by patenting them or choosing suitable Intellectual Property Rights. The contents covered by him were the basics forms of IPR. He covered copyrights, Trademarks, and Patents by giving various real-life examples. He also talked about various brands and gave knowledge about the salient features of IPR. He explained what can be patented and what cannot be patented as per rules. He talked about the terminology which is used in IPR.

The webinar was further enlightened by the interesting questions answer session in the last which gave true colors to the webinar and gave chance to young innovators to speak their doubts regarding innovation and its protection.

A number of students participated 26.

The Programme ended with a vote of thanks proposed by Ms. Aakancha Sakpal student of SYBMS.

Seminar on Overview of Research Methodology

The College Conducted a guest lecture on the subject of Overview of Research Methodology on 11th of January 2018 at 10.00 am. The Resource person was Prof. Kanchan Fulmali, Assistant Professor in the Department of Commerce, M.L. Dhanukar (University of Mumbai). The session was attended by the students of SY- BCOM/ BMS/ BBI/ BAF & TY- BCOM/ BMS/ BBI and M.Com Part I and II.

The Programme began with Asst. Prof. Aruna Chetty introduces the resource person.

Asst. Prof. Mrs. Kanchan Fulmali actively interacted with the students on the topic of 'Overview of Research Methodology'. She discussed the aims of conducting research, what research is and is not, and the difference between methods and methodology. Research methods may be understood as all techniques used by the researchers during the course of studying the research problem. Research methodology involves various steps generally adopted by a researcher in studying the research problem along with the logic behind them. she also covered the deductive and inductive approaches adopted in the research. Deductive reasoning thinking proceeds from general assumptions to specific applications, while Inductive reasoning is concluding about events (general) based on information generated through many individual and direct observations (specific).

The resource person also spoke about the components of a theory in research i.e. What, How, and Why and the importance of boundary conditions i.e. Who, Where, and When? Then she went on to speak about the process involved in research in greater detail. The research process is as follows;

Formulating the research problem; Extensive literature survey; Developing the hypothesis; Preparing the research design; Determining sample design; Collecting the data; Execution of the project; Analysis of data; Hypothesis testing; Generalisations and interpretation, and preparation of the report.

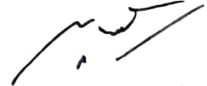

The resource person stressed the importance of review of literature i.e. why it is important, why a researcher should not stop and continue reviewing the existing literature till the time of data collection. She also enlightens the insights on how to review the existing literature in a particular area of research, how to identify the research problem and research gap, how to formulate hypotheses and the errors involved in accepting and rejecting hypotheses i.e. Type I and Type II errors etc.

Prof. Kanchan Fulmali's presentation concluded with an interactive session with the students. The Programme ended with a vote of thanks proposed by Ms. Aakanksha Sakpal student of SYBMS.

A total of 39 students participated in the event.
