RESEARCH CONVENTION
(2018-19)

ON SAT.16TH MARCH 2019, 9.00 A.M.

To,

The Principal / Extension Work Teachers

In the current academic scenario Research is considered to be one of the most important aspects. It enriches the human civilization and creates confidence in the individual. It creates joyful atmosphere in learning, and improves the quality of education. Research will help to understand any subject and its principles in much better and easier way. The purpose of research is to inform action. It seeks to contextualize its findings within the larger body of research. Research must always be high quality in order to produce knowledge that is applicable outside of the research setting with implications that go beyond the group that has participated in the research. Research at higher education level holds its own importance at that level as it will open the door for a bright future. With this aim **"The Department of Lifelong Learning & Extension, University of Mumbai** is conducting **'UDAAN' A Research Convention'**; an activity which will motivate extension students to develop research culture in this regard.
